

FAST FACTS

MARIJUANA POISONING IN DOGS

Legalization of medicinal and recreational cannabis in many states has increased the exposure of dogs to many cannabis products.

COMMON CLINICAL SIGNS OF CANNABIS POISONING

Incoordination

Drowsiness

Disorientation

Dilated Pupils

Urinary Incontinence

CLINICAL SIGNS CAN APPEAR WITHIN **30 TO 60 MINUTES** OF EXPOSURE.

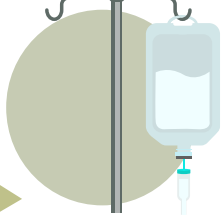

DECONTAMINATION VETERINARIANS MAY:

Induce vomiting as quickly as possible. Within 30 minutes is preferable

Administer activated charcoal

Administer IV fluid therapy for supportive care

MOST PATIENTS RECOVER IN **24 HOURS TO 3 DAYS** DEPENDING ON AMOUNT INGESTED.

ALWAYS CALL A VETERINARIAN — AND BE HONEST! Veterinarians encourage you to share all the facts so your pet can get the best care possible. **Their only concern is your pet's health!** 😊
