

Worried your dog ate something toxic? Be ready for this 4 questions

CALL YOUR VETERINARIAN
A few questions they will ask include

KNOW WHAT WAS EATEN

Obtain the specific prescription information, product label, recipe, or plant name

ESTIMATE HOW MUCH WAS INGESTED

It's important to estimate how much your pet has ingested to properly calculate the potential toxicity

REMEMBER YOUR PET'S WEIGHT

Your pet's size will help determine the potential toxicity

UNDERSTAND WHEN IT HAPPENED

Absorption varies depending on the timeframe. A single tablet of acetaminophen can dissolve within 30 minutes!
